

PREPARING TO SELL YOUR HOME?

As you prepare your home for sale, it is important to properly dispose of any unused or expired medications

Studies have shown that many legally-prescribed medications remain in medicine cabinets long after their need or expiration dates have passed.

The Minnesota REALTORS® suggests that sellers dispose of unwanted medications at a local disposal site prior to showing their home.

REMEMBER: STORE SECURELY & DISPOSE SAFELY

DO:

- Store your medicines safely away from children and others who may take your medicine without your knowledge or permission. This may mean locking up your medicine in a safe, or another secure location.
- Dispose of unused or expired medications safely by taking them to an approved disposal site.

DON'T:

- Flush pills or medication down the drain or toilet. Flushing pollutes drinking water and can harm aquatic life.
- Throw pills or medication in the trash. Misuse can occur once the medication leaves your home. Always opt for a secure disposal site.

Did you Know ?

Minnesota has more than 100 drop boxes statewide
